LOCAL MATTERS.

LOCAL BRIEFS —

$5,000 to loan—apply to Col. Bunting.

The arrival of several more families from Canada to settle in our midst on Saturday.

Do not forget the great auction sale of beautiful pictures this, Monday, evening at W. H. Jones & Co's.

The snow on Friday, slightly retarded building operations, but the pretty weather of Saturday and Sunday will invite a resumption to-day.

D. A. Wicker, Norfleet Dunston, and Ross Pettiford are the tax receivers for Raleigh Township. They will be at the Mayor's office for 20 days; commencing April 1st.

Willis Heartfield, the man that was killed at the Penitentiary revolt, was not the murderer of Anderson Selby, as previously stated by us. He was in ten years for larceny.

Among the many arrivals at the Yarborough on Saturday was quite a distinguished character, from Warren county, Jack Woodson, whose reputation in his native wilds, is equal to that of "Snarleyow" on the vessel or ship, the name of which we have forgotten, that Merryatt the novelist wrote about.

HENDERSON ITEMS.—From a correspondent we have been favored with the following items from Henderson and vicinity:

The scarcity of forage is causing great inconvenience to farmers in Granville.

The question of tobacco tax is exciting a great deal of attention. They anticipate a reduction on plug tobacco, which is now 32 cents.

The snow of Friday averaged 1½ inches deep at this point.

The Savings and Loan Association is considered a fixed fact. At a meeting held a few since the following officers were elected: Maj. W. A. Harriss, President; Capt. D. Ellis Young, Vice President; John F. Harriss, Treasurer; Willis F. Rowland, Secretary: *Directors:* Capt. Samuel J. Parham, Capt. Edwin G. Brodie, Capt. John W. Booth, R. E. Young, Esq., J. H. Lassiter, Esq., L. H. Keith, Esq., John E. Clarke, Esq.

AUCTION SALE.—We take great pleasure in refering our friends and the public to the great auction sale of two hundred elegant pictures, to be sold, commencing this evening (Monday) and now on exhibition at W. H. Jones & Co's.

All those who delight in the beautiful should call, and should not let this oppitunity pass, without being the possesor of at least one rare gem. On Tuesday at 11 o'clock a sale to accomodate the ladies, will take place, ladies, do not fail to call and examine the finest lot ever before in this city.

MAYOR'S COURT.—*Saturday, March 23rd, 1872.—Mayor W. H. Harrison, presiding.*—

Friday Jones, asked for and obtained a peace warrant against one Ralph Sheppard, not that Friday was afraid of the said Henderson himself, yet he had reason to believe that Henderson was mean enough to reek vengeance on him, for imaginary wrongs by injury to his (Friday's) children at school. The Mayor bound Sheppard in a peace bond of $50.

Ed Perry, colored, beat his wife, who had him arraigned before the Mayor's Court. After an investigation, the Mayor held the defendant to bail in the sum of $200 for his appearance before the next term of the Superior Court.

THE PENITENTIARY REVOLT.—The investigation of the revolt continues at the Penitentiary. Cordon, the apothecary, read the article from the newspaper that the prisoner Hill heard and conveyed to his cell mates, which was the prime cause of the revolt. Hill reported that Gov. Caldwell had said that no guard had a right, or should fire on a convict if he attempted to escape. It was expected and understood that the revolt would be general throughout the Penitentiary, but the promptness of the guard kept them down. It is rumored that the notorious John H. Everett, sent from Halifax county for implication in the R. & G. R. R. robberies, was the instigator of the whole affair, but the investigation so far has failed to develop facts sufficient to show that he was the leader.

We hope by Tuesday to be enabled to give our readers a full and complete history of the whole affair.

CONSERVATIVE MEETING.—The Conservatives of Swift Creek Township will meet in Convention, in Franklin, on Saturday next, the 30th inst.

THE COUNTY RADICAL CONVENTION.—On Saturday last, about 11 o'clock, A. M., the usual din and bustle of our streets was increased by the ringing of bells, which we ascertained to be for the purpose of "settling," or assembling the "faithful" of Wake county together at the Court House. After much difficulty in moving the usually large crowd of idle negroes that infest the main thoroughfare in front of the market to the scene of action, a quorum was evident, when R. C. Badger, Esq., was called to the Chair, and M. Grausman and J. C. Jones col., were appointed Secretaries. But for the idle market loungers, City revenue officials and their clerks, United States and State officials and their underlings, we would have been cut short of this item, for no Radical Convention could have taken place in Raleigh Saturday.

We were not present at its opening, but learn that two thirds of the townships were represented by *city proxies.* We happened in about 1 o'clock, and staid until Marshal Carrow, Gen. Jones, and another sick man retired, when we too followed suit. "Jeems" Harris was up while we were in, and strange to say we enjoyed a few of his remarks. He told Sheriff Lee that if the Democrats remained in power, he would have to take up his carpet bag and "git" for Boston. He denounced in unmeasured terms, the Republicans that voted for the impeachment of Holden; in doing so, cracked the party whip over the "Era's" head for bringing forward the names of some of these men for prominent positions before the people. A voice in the room answered: "It will do so no more," and in such a piteous tone that we supposed it to be one of the Editors or proprietors, but could not tell. The speaker replied: "It will not have an opportunity of doing so again." What was meant in the reply we are unable to say.

At the conclusion of Harris' speech, the president, Badger, had to "see a man" and W. R. Richardson took the chair. We, too, had a man to see—left the Hall and did not return till late in the evening.

This time Marshal Carrow was "rattling off" in his peculiar inimitable style. He told his colored friends, especially, that it would never do to put these college learnt "fellers" in position, (hard on the President of the "pow pow.") We left him as he caught hold of both horns of a "*dialem*, and could not report further from personal knowledge. We learn that the delegates appointed to the State and District Convention were instructed to vote for T. R. Caldwell for Governor, and Gen. W. D. Jones for Congress.

THE ROW AT TUPPER'S COLORED BAPTIST CHURCH. Owing to our departure from the City on Friday evening, we were unable to give our readers the particulars of the row at Tupper's Church on Thursday evening. We therefore copy from the *Sentinel*, of Saturday morning, the following interesting account:

"On Thursday night last, at a late hour, a frightful scene was enacted at the colored Baptist church in this city, which at one time promised to result in bloodshed and death. The circumstances are as follows:

It seems that soon after the close of the war certain Northern Baptists purchased for their colored brethren in this city a lot, upon which they erected for them a church, and deeded the property to certain trustees, of whom Friday Jones was one. Now Friday has a daughter, and he insisted on giving to her the use of the church in which to teach school; but the other trustees resolutely objected, the members of the church having recently expended a considerable sum of money carpeting, painting and otherwise beautifying the building On Thursday night a meeting of the trustees and members

The result was the interference of the police and the arrest of Friday and a number of others and they were marched to the guardhouse. In the meantime application was made to Squire Whitaker for a warrant against Friday Jones for larceny. This was for some cause not granted, but the 'Squire attended the guardhouse and on a statement of the foregoing facts declined to interfere, informing the complainants that their remedy was in a civil suit through the superior court. Friday on hearing this demanded to know if there was any charge against him, and, being answered in the negative, he majestically stalked from the presence of the crowd and wended his way home. The remainder of the trustees did not seem to fancy 'Squire Whitaker's style of justice, and resolved on further proceedings against Friday for forcibly stealing the deed.

Yesterday the case was brought before Mayor Harrison, and the hearing postponed till this morning.

of the church was held to decide the matter. The first business was to expel Friday from membership in the church. This was accordingly done, (for the third time, it is said,) but Friday, pointing to the communion table, announced defiantly that he intended to go to that table every time it was *sot.* He was next expelled as a member of the board of trustees. Then the question of the control of the church property was considered, and the deed was introduced and was read to show the conditions on which the property was held. Whilst in the act of reading the deed, Friday Jones snatched the paper from the hands of the reader, and made for the door with the plunder. And now the scene became lively. The men rushed after Friday, and the women resolutely opposed his exit, getting between him and the door and surrounding him—all shouting and hallowing at the top of their voices—but Friday kept on his way, mowing down the women in his front, and brandishing his club at the men threatening him in the rear, and finally gained the street, the entire pack at his heels.

Burning of an Opera House in Philadelphia.

On Wednesday morning, the 20th, the opera house of Messrs. Simmons and Slocum, situated on Arch st., above Tenth, north side, was totally destroyed by fire

The flames were first discovered about a quarter of seven o'clock, near the heaters in the cellar, whence, notwithstanding all efforts to extinguish them, they soon burned through the first floor, and fed by the light stuff of the stage and seats, it was but a short time before the entire building was a mass of flames. The roof was of tin, but it soon gave way before the fervid heat beneath, and it was not until then that the firemen were enabled to do much service in getting water on the fire, as the dense smoke that poured out through the arched passage in front of the building drove them back whenever they attempted to enter.

The fire made a great heat and smoke, and burned so rapidly that in the course of an hour after the alarm was sounded, the greater part of the building was in ruins. The front, which was easily accessible, was saved in a badly damaged condition, through the exertions of the firemen. The large lamp which hung in front of the building was saved from damage.

When it was seen that the fire was sweeping all before it, the watchmen, aided by some citizens, seized the wardrobe of the company, and managed to save it. This was valued at several thousand dollars, but if it had been burned could hardly have been replaced at present.

The opera house was two stories in height, 50 feet wide by 175 feet long, and was built of brick. The rear walls are so badly damaged, that it is at present thought they will have to be taken down. Inspection, however, may prove this to be an error.

The loss by the fire is thought to be about $50 000, as the house cost, when erected two years ago, $47,00.

No. 1007 Arch street, occupied by Dr. Gleason, was damaged by water.

The building of the Philadelphia Dental College, on the corner of Tenth and Arch streets, was slightly damaged by fire about the roof and copings, but, although there was some water in the building, there was but little that could be thus damaged.

The tailor-store of T. J. Woodward, in this building, was flooded with water, but no damage was done, as the stock was covered by the Patrol.

The fact of the fire was soon known by the quantity of smoke emitted, and the streets around were filled with spectators, but as the police at once put up ropes, and stood guard, the fire-ground was remarkable free of civilians.

The ruins were still burning at half-past nine o'clock, although there was but little fire to be seen on the surface.

The building was owned by Garsed & Winpenny, the firm of Simmons & Slocum having one-quarter interest.

The insurance on the building is as follows: Royal, $10,000; Liverpool, London, and Globe, $20,000; Farmers' Mutual, $2,500, and a company at present unknown, $2,500. This is divided as follows: Front building, $6,250; back building, $13,750; furniture and fixtures, $2,500; scenery, $1,250; decorative paintings, $1,250.

Franz Linderholtz, confectioner, occupying a store in the front of the building, loses $2,000, on which he has an insurance of $200 in the Spring Garden Company.

Richards & Warren, dealers in perfumery and soap, occupying the first floor of the Dental College building, suffer a loss of $5,000 by water, which is fully insured as follows: Ætna, $2,500; Reliance, $2,500.

The cornice on the front of the building fell a few minutes after nine o'clock, and William Simpson, driver of engine No. 3, who was on it cutting away some fire, was precipitated to the ground and badly injured.

Wm. Bleever, a member of the minstrel troupe, was in the green room when the fire was discovered, and as he remained for a few minutes to save some of his goods, he had to run through the fire, and was burned about the face and hands.—*Philadelphia Evening Herald.*

Time is the cradle of hope, and the grave of existence; and while it deprives beauty of her charms, transfers them to the canvas on which they are delineated.

Very few in the world have their passions adequately occupied; almost everybody has it in them to be better than they are.

Our most indifferent actions have the impress of individuality; we may convey an impression not to be effaced for years by an unconsidered word or gesture.

Weather Probabilities.

WASHINGTON, March 23.

The low barometer north of Lake Ontario will move eastwardly over the New England States, and brisk and high northwesterly winds will extend from the lower lakes to the east and middle Atlantic coasts. Clear weather will prevail on Sunday over the Middle States, except probably along the lower lakes' region, and extend over New England by and on Sunday morning. Easterly to Southerly winds prevail over the Western and Gulf States, with probably threatening weather. Falling barometer and winds backing to southerly are probable for the northwest during the night, and extend to the Ohio valley and over the upper lakes on Sunday. Dangerous winds are not anticipated for the Atlantic and Gulf Coasts.

"THE GOVERNOR AND HIS DUTIES."

When the illegally appointed officers held over after demand, they placed themselves *in the wrong*. It is the duty of the Governor to maintain the Executive Department of the Government. The people demand this. Reason, justice, good government all require it. The shout of the mob may chime in with the denunciations now heaped upon the Governor of North Carolina for what he believes to be an honest discharge of the duties of his office, but the people will sustain him. If, in the contest, between the lawful government of the State and the wrong doers, the public press and public sentiment were properly directed, the wrong doers—no offence is meant by the term—would soon retire. There would then be no necessity of putting any one on half rations or sending any one home. The people have seen quite as much resistance to lawful authority of late as they desire to see. They demand obedience to the laws and to lawful authority.—*Carolina Era.*

The above is about all the defence that has yet appeared in the Radical organ in favor of Governor Caldwell's reckless disregard of law and the Constitution. We have shown that the *Era*, to sustain the Governor, had to trample under foot the decision of the Supreme Court in the case of Clark *vs.* Stanley—*the very decision from which the Governor pretends to get authority to turn out the officers of the State institutions who were appointed under Act of the Legislature.*

"When the illegally appointed officers held over after demand, they placed themselves *in the wrong*," says the *Era*."

Who says the Legislative Boards are illegally appointed officers? Where is the authority for declaring them so? Have the Acts under which these Boards were appointed been declared unconstitutional? Have they yet been before the Courts for adjudication? These Boards have been advised by counsel learned in the law, that there appointments were made in pursuance of law, and are not in violation of the Constitution. Until the law under which they act has been pronounced unconstitutional, they are presumed to be the legal Boards, and any attempt by the Governor to eject them before that law is declared unconstitutional *is a gross usurpation of Executive power, a shameless disregard of the law, and a reckless defiance of the Constitution.*

We assert it unhesitatingly, that when the Governor of North Carolina, without an appeal to the Courts, attempts to eject officers who are acting in pursuance of an Act of Assembly, he is guilty of a high crime in office which would justify his impeachment!

Suppose the Boards were illegally appointed by the Legislature; there is but one legal way by which the legality of these appointments can be tested, and that is by a resort to the Courts. Any method of taking charge of the State institutions by the Governor's appointees, save that in pursuance of law, makes the Governor a criminal, and a violator of that Constitution which he has taken a sacred oath to support.

We are surprised at the doctrine proclaimed in the *Era*. We are astonished that Col. Hanes, who has always expressed so much reverence for law, and who has been such a strict constructionist, should advise a course which he must know in his conscience to be wrong, and "utterly untenable" in the light of reason, common-sense and the Constitution. It must be his mistaken sense of duty as the Editor of the Radical organ, that forces him to defend a lawless Governor in the face of his unquestionable and repeated violations of the fundamental law of the land.

"It is the duty of the Governor to maintain the Executive Department of the Government," says the *Era*.

That is true, but it is *not* his duty to clothe himself with *judicial* powers also, and construe the law without consultation with the Attorney General, as Caldwell has done. It is this of what we complain; that he will not confine himself to the duties of the *Executive* Department, but combines the office of *Judge* with that of *Governor*, when the Constitution says expressly that the powers of the Executive, Judicial and Legislative Departments shall be kept separate and disitnct. "The people demand" that the Governor shall not usurp Judicial power. "Reason, [illegible]ment, all require', [illegible] himself to his [illegible] not arrogate to himself the power of the Courts.

"If the public press and the public sentiment were properly directed, the wrong-doers would soon retire," says the *Era*.

If by *wrong-doers* the *Era* means the Legislative Boards, then that paper has failed to show *any wrong* they have committed. They hold their appointments by act of law. If that act is pronounced invalid, they are ready to surrender the trusts reposed in them. Until so pronounced, it is their duty, and they have been so advised by some of the most eminent lawyers in the State, to continue in the exercise of their powers and in the discharge of their duties, according to their appointments. The public press and the public sentiment are directed against the *real* wrong-doers, and these are Gov. Caldwell and his illegal Boards. That press and that sentiment will continue to be heard in denunciation of the real wrong doers until they shall be forced by the indignant rebuke of the public to recede from the disgraceful position in which they find themselves placed. In that event, "there will be no necessity for putting any one on half rations or sending any one home."

"The people have seen quite as much resistance to lawful authority of late as they desire to see; they demand obedience to the laws and to lawful authority," says the *Era*.

Amen! say we. The resistance to lawful authority proceeds from the Governor in this matter, and no one else. He has violated the law, as Col. Hanes himself must know. The Governor has resisted the lawful authority. He is now acting in defiance of an Act of the Legislature, which has not been adjudged unconstitutional. And the people demand obedience to the laws and to lawful authority from the highest as well as from the humblest citizen. The Governor cannot violate the law with impunity. He will be held to a strict accountability for his flagrant and violent infractions of the Constitution.

Tod R. Caldwell, Governor though he be, is not above the law. When he attempts to trample upon the Constitution which, in the sight of Heaven, he has solemnly sworn to support, he becomes amenable to punishment, and stands a criminal at the bar of public opinion! The people demand obedience to lawful authority, and they demand that obedience at the hands of the Governor of North Carolina!

THE CINCINNATI CONVENTION.

The Radical darty is trembling with fear at the prospect of a grand out pouring of the Liberal Republicans on the first of May, at Cincinnati. The movement has become so powerful and formidable that it is beginning to demoralize the friends of Grant. They see in it a power which is destined to permanently disrupt the Republican party and overwhelm it with complete disaster. In order to prevent this calamity, it is now proposed by some papers at the North, which profess to be in favor of the movement, to send delegates to Cincinnati to shape the proceedings of that body in the interests of the Philadelphia Convention. This class of papers argue that the Convention does "not necessarily forebode a split in the Republican party," but that it may under "proper counsels make that party stronger than before." We consider this a trick on the part of the Grantites to disarm the Liberal Republicans, and hand them over in a body to the Radicals.

There is a gulf between the true supporters of the Liberal movement and the adherents of Grant which cannot be bridged. No man, we take it, will be admitted in the Cincinnati Convention who is not opposed to Grant. Indeed, the chief object of that Convention is to bring out such a candidate for President as will give some hope of uniting all the elements of opposition to Radicalism, so as to secure the defeat of the Radical nominees in November.

As to the "split" in the Republican party, we regard that as having already taken place. The leaders of the Liberal movement, Schurz and Brown, have taken their position in advance of the columns against the Administration, and they will not recede.

The idea of the Cincinnati Convention uniting the disaffected Republican elements in the interests of Radicalism is not worthy of serious consideration.

WHO IS RESPONSIBLE?

Until Gov. Caldwell made the appointment of "Commissioners" for the Penitentiary, the convicts were under good discipline, well behaved and submissive. The investigation into the origin of the late outbreak has brought to light the fact, that the convicts acted under the conviction that the Directors had no authority to hold them, and that if they would attempt to effect their escape, the Guard would not be justifiable in shooting them. Information had been conveyed to the convicts that the Governor did not recognize the Legislative Board as having any legal authority over them, and if the Guard should kill any who endeavored to escape that it would be an act of murder, for which the Guard would be punishable with death.

These rumors having reached the ears of all the convicts, they immediately resolved on an outbreak at the first opportunity, and on Thursday evening last, the inmates of one of the cells attempted to carry out the plan agreed upon. With the fatal consequences of this attempt, our readers are already familiar.

Will the people of North Carolina hold Governor Caldwell entirely guiltless of the blood of the negro Hartsfield, who was killed by the Guard while the latter were attempting to put down the insurgents? Would Hartsfield have been killed had the Governor obeyed the law? Who is responsible for this outbreak at the Penitentiary but the Governor of North Carolina who, in his lawless attempts to turn out the Directors of the Penitentiary, sowed the seeds of demoralization and insubordination in the minds of the convicts?

When the highest officer in the State sets the laws at defiance, his evil example becomes contagious, and insubordination follows.

COL. HANES RETIRES!—THE RADICAL ORGAN WITHOUT A HEAD!

Since writing the article in another column on "The Governor and His Duties," we have received information from a most responsible source that Hon. Lewis Hanes, who has been editing the Radical organ of the State, "*The Carolina Era*," has retired from the editorial chair of that paper, and that his valedictory will appear in the next issue. This is not a mere rumor, but a fact, the truth of which we have the most positive and unmistakable assurance.

Those who know Col. Hanes well, will not be surprised at his withdrawal. We have stated several times in the columns of the NEWS, that he could not give satisfaction to the Radicals as the Editor of their organ. On last Thursday, we stated that as he could not *ascend* the mountain of Radical corruption, that he would never occupy an *elevated* position in that party; that as the mountain would not come to Mahomet, neither did we believe that Mahomet would go to the mountain. The disruption has taken place a little sooner than we expected.

Col. Hanes could not defend the Congressional Ku Klux bill, with the suspension of the writ of *Habeas Corpus*. He could not defend, conscientiously, the lawless acts of Gov. Caldwell. He could not bow to the Radical high priests who expected obeisance of him, his compliments and his adulations. He could not defend the corruptions of the Radical party. A man of his independent spirit could never give satisfaction to that party—a fact which we have all along stated.

What the immediate causes of Col Hanes' retirement are, we have not been informed. We learn, however, that judging from the tone of the Radical press of the State, and from other sources, that his course as editor of the *Era* was not satisfactory, he made overtures to Col. Carrow, stating the terms on which he was willing to dissolve the contract with his employers, which were accepted by that gentleman.

Col. Hanes is not a Radical by nature, and can never become one. His sympathies are believed to be with the Liberal Republican movement, formerly so strongly advocated by himself in the columns of the *Old North State*; and it may be that this has something to do with his present course. This, however, is only conjecture on our part. Certain it is, that he has left the Radicals, and left them in disgust. It was an evil day for him that he ever allied himself with that wicked organization. We trust that he will henceforth devote his talents to the cause of the peple against the most corrupt party that ever "rose, reigned, or fell."

A GOOD SET OFF.

From the article below it will be seen that the Salisbury *Watchman* has despaired of bringing the *American* back to the right fold. Well, we suppose we have to give up the *American*, but let our erring brother go in peace. We can afford to lose that paper, inasmuch as the Editor of the *Era*, Hon. Lewis Hanes, eschews Radicalism and deserts its sinking hulk:

[From the Salisbury Watchman,

The Statesville *American* has gone over to the radicals. It speaks of the Conservative party as the party "hitherto advocated." Bro. Yates of the Charlotte *Democrat* turns his head aside and drops a tear at parting. Bro. Hill of the *Southern Home*, on the contrary, seems jolly, and says, good-bye, Mr. Drake. The Raleigh NEWS recites the *American's* past course and vainly seeks a justifying cause for its strange departure. Bro. Turner of the Raleigh *Sentinel*, says to the Conservative press, don't "be in too big a hurry to shake hands with brother Drake. We hardly think Mr. Drake will play the sneak or brindle-tail by pretending to be on both sides." But our *radical* brother of the Winston *Republican* says:

"We welcome to our sanctum this week that sterling old journal, the Statesville *American*, breathing forth purity, honesty and integrity in every whiff."

This seems to settle the question. The *Republican* doubtless "knows all about it" and would not take to his bosom a base flattery with such evident gusto.

Indictments have been found in the United States Circuit Court, at Lynchburg, Va., against a number of citizens of Franklin, Bedford and Botetourt counties, for illicit distilling, violation of the revenue laws, &c.

Several well known citizens of Lynchburg, Va., are to be tried before the United States Circuit Court for an alleged violation of the Enforcement Act.

Captain R. T. W. Spotswood has been appointed oyster inspector for the second district of Virginia.

The Charlottsville, (Va.) *Chronicle* now runs its presses by steam.

THE PRESS vs. CALDWELL.

We continue our extracts from the State press, denouncing the conduct of Gov. Caldwell. We shall continue to do so from day to day, as our exchanges come to hand:

[From the Greensboro Patriot.

The conduct of Tod Caldwell in refusing supplies to the directors of the charitable institutions and the penitentiary at Raleigh, shows to what petty meanness the man is capable of stooping when actuated by the miserable spirit of partisanship, which seems to be the impelling motive with him. For the sake of appointing a few needy favorites to office, whose services he will require when the Radical convention meets, he refuses the means of supporting the unfortunate inmates of these institutions, and, as far as he is able, virtually closes them up.

What cares he whether the doors are closed or not, and that the afflicted are denied admittance into the Asylums erected for them; what cares he if the Penitentiary be closed and the counties taxed to support their criminals in idleness; what cares he if the inmates be starved to death, for is he not Tod, the Governor of the "loyal," and hath he not said things shall be according to his will though the poor should starve?

A first-class mule was spoiled when the Governor became one of the family that walks on two legs, and are supposed to be endowed with reason, though it is not always so, as in the case of our Governor, who never was known to use reason on anything. During the summer solstice however the people will give him a lesson or two and wind up their instructions early in August.

[From the Winston Sentinel.

Under the decision of the Court in the above case, Gov. Caldwell appointed a new State printer, new directors for the asylums and the penitentiary. He directed the Secretary of the State not to furnish any copies of the laws to the legislative printer, and the Secretary of the State refused to do so, until Mr. Ramsey, the State printer, brought suit before Judge Moore to compel him. Judge Moore decided that the action of Gov. Caldwell was illegal, and ordered the laws to be furnish to Mr. Ramsey, the contractor under the legislature. Notwithstanding the decision of Judge Moore, Gov. Caldwell has ordered the State Auditor not to audit any of the accounts of the boards of directors for the asylums or the penitentiary. As the old boards of directors refused to give way to Gov. Caldwell's unlawful appointees, he hopes that by *starving* the deaf and dumb, the blind and insane, and the prisoners he can *force* the present directors, through their feeling of humanity to give way and allow his pets to step in. This war, for political purposes, by Gov. Caldwell on the unfortunate charges of the State is wicked and inhuman, and deserves the condemnation of every man in the State. A party that has to be upheld by such means is a curse to the country.

[From the Salisbury Watchman.

Governor Caldwell has become desperate in his opposition to the people as expressed through their representatives, the Legislature. The reader's attention is called to the letter of Mr. Bledsoe, in this paper, Chairman of the Board of Managers of the Penitentiary, showing the state of things touching that institution. A similar interference has been instituted by the Governor as to the Insane, and the Deaf and Dumb Asylums. His partizan rancour is boundless, and the subjoined paragraph from the Raleigh *Sentine* of the 21st, shows that serious fears are entertained that it may lead to very bad consequences.

It is now prescribed by physicians, and recommended by our best citizens. mhl-10t

☞ TO THE SUFFERING.—The Rev. William H. Norton, while residing in Brazil as a Missionary, discovered in that land of medicines a remedy for CONSUMPTION, SCROFULA, SORE THROAT, COUGHS, COLDS, ASTHMA AND NERVOUS WEAKNESS. The remedy has cured myself after all other medicines had failed.
Wishing to benefit the suffering, I will send the recipe for preparing and using this remedy to all who desire it FREE OF CHARGE.

SINKING SLOWLY.—Diseases that progress rapidly to a crisis are not the only ones to be dreaded. Canker or dry rot does not blast a tree as suddenly as a stroke of lightning, but unless arrested it destroys it as certainly; and in like manner chronic debility, although it does not kill with the swiftness of yellow fever, is as sure to sap the springs of life eventually as any acute disease, if not checked by invigorating medication. There is something inexpressibly touching in the spectacle of premature decay. Languor, pallor, emaciation, depression of spirits, and a distaste for exertion, are its ordinary symptoms, and they should be promptly met by tonic treatment. The best invigorant and exhilerant that can be administered in a case of this kind is Hostetter's Stomach Bitters. The stimulating principle of the preparation rouses the dormant energies of the system and the strengthening and regulating properties give a permanent and healthful impulse to the vital forces thus brought into play. The failing appetite is reawakened, the process of digestion and assimilation are quickened, the quality of the blood is improved, the secretions become more natural, and every organ that contributes to the nourishment of the body undergoes salutary change. By these means the repair of the physical structure is effected and its health and vigor restored. In no class of diseases has the beneficent operation of the Bitters been more marked and striking than in those characterized by general debility and nervous prostration. Ladies affected with these ailments find in this most wholesome of all tonics and correctives the safest and surest means of relief. It is as strong to restore and powerless to injure. Such is the uniform testimony of "clouds of witnesses."

YOU ARE TROUBLED WITH A BAD BREATH. It annoys your friends as well as yourself. You would like to get rid of it, but scarcely know what means to adopt. We will tell you. Use the fragrant Sozodont; it will cleanse and beautify your teeth and leave your breath pure.

BURNETT'S STANDARD FLAVORING EXTRACTS.—Lemon, Vanilla, &c. Charge your servants and dealers and observe that they do not substitute in their stead any of the pernicious, unpalatable extracts with which the market is flooded. Burnett's Standard Flavoring Extracts are established as the strongest, purest and the best made.

THE TERRIFIC DUEL between Prussia and France is over, but thousands of battles between DR. WALKER'S VINEGAR BITTERS and Dyspepsia and Liver Complaint are now going on in every State of the Union. The issues of such contests are never for one moment in doubt. The conflict may last longer in some cases than in others, but the leading Vegetable tonic and alterative of the nineteenth century invariably umphs.

TO OWNERS OF HORSES AND CATTLE.—Tobias' Derby Condition Powders are warranted superior to any others, or no pay, for the cure, of Distemper, Worms, Bots, Coughs, Hide-bound, Colds, &c., in horses and colds, coughs, loss of milk, black-tongue, horn distemper, &c., in Cattle. Price twenty-five cents, Depot, 10 Park Place, New York.

Henry, sole Proprietor, 8, College Place, New York.

SVAPNIA is Opium purified of its sickening and poisonous properties, discovered by Dr. Bigelow, Professor of Botany, Detroit Medical College. A most perfect anodyne and soothing opiate. John Farr, Chemist, New York.

CHRISTADORO'S HAIR DYE is the safest and best. It corrects the bad effects of inferior dyes, while the black or brown tints it produces are identical to nature. Factory 63, Maiden Lane, New York.

PRATT'S ASTRAL OIL—Safest and best illuminating Oil ever made. Does not take fire or explode, if the lamp is upset or broken. Over 150,000 families continue to use it, and no accidents of any description have occurred from it. Oil House of Charles Pratt, established 1770, New York.

THE PUREST AND SWEETEST COD LIVER OIL in the world is Hazard & Caswell's, made on the sea shore, from fresh, selected livers, by Caswell, Hazard & Co., New York. It is absolutely pure and sweet. Patients who have once taken it prefer it to all others. Physicians have decided it superior to any of the other oils in the market.

JOUVIN'S INODOROUS KID GLOVE CLEANER restores soiled Gloves equal to new. For sale by Druggists and Fancy Goods Dealers. Price 25 cents per bottle. F. C. Wells & Co., New York.

RISLEY'S PHILOTOKEN is an established, warranted remedy for Painful Menstruation; and equally efficient as a Nervous Antidote in all cases of Nervous Excitement, Stomach and Sleeplessness in male or famale. Sold everywhere for $1.00 a bottle. Morgan & Risley, Druggists, New York. General Agents.

Health of Hertford—The News—The Democrats, Conservatives, Labor Reformers, and Liberal Republicans &c.

HERTFORD, Co., N. C., Buckhorn Academy, March 21st.

Editors Raleigh NEWS: Old Time swings his heavy pendulum with a sing-song tune in this remote section, and should your correspondent fail to interest your Weekly readers in his *weakly* efforts, you must attribute it to the scarcity of material and not to any want of inclination on his part to chronicle the *deaths* and *marriages* of his friends. The hygiene of our section is so remarkably good, that even our oldest citizens grip the thread of life so firmly as to defy the snapping fingers of mercury, and present such a fine, healthy appearance, that we hope and believe the day is still far distant when they shall be "numbered among the things that were." Then, too, the "weather probability man" has taken that item from us, and unless the wind pipes around some dismantled house or over the luckless skull of some storm stranded wretch, you need not expect us to dance to that tune. No matter, the world is before us where to choose, and should we get trumped we will write a novel or commit a *felo de se* by immolating ourself on the mount of Pegasus. The world is moving and we will move too, by *sitting* still and sending our spirits abroad even to Winton, if need be, to gather up subjects for dissection. You are dealing trenchant blows at the hydra head of Radicalism, and we wish you many seals to your ministry. It is our humble opinion that the throne of the mighty is fast crumbling to pieces, and that its fragments will ere long be trampled in the dust, by the advancing hosts of time and good men. When the historian shall record the events of our National History, how deep must be the blush of shame upon his cheek when, with the scalpel of an unprejudiced pen, he is called upon to write the meanness, the venality and the corruption of the present administration. No man, since the days of Washington, has had it in his power to do more good than General Grant. Elected to his high position almost unanimously, regarded as a plain, blunt and honest soldier, clothed with almost arbitrary power, it was within his reach to achieve an immortality of good renown, to have secured not only the love of his own people, but the respect and confidence of those men who opposed him in battle array. What has been his course in regard to them? Relying upon the pledged word of a great nation, as given by its military dictator, they grounded their arms and in good faith, to repair their broken fortunes by honest toil. What was the result? They found the serfs of the soil, the unlettered and prutish negro as a class, preferred to seats and positions of high trust, while the noblest intellects of the South were fettered by political disabilities. But a bugle blast is sounding now, and its clarion notes will rally all the brave and noble hearts in the broad land. Let the dead past bury its dead, we should act for the living present.

Let the Democrats, the Conservatives, the Labor Reformers, and the Liberal Republican, with clean hands and honest hearts, forming and constituting a vast brotherhood, casting aside all partizan spirit and sectional feeling, unite to fight the great campaign of '72; let them hearken to the friendly greeting of Gratz Brown and Alexander Stephens, and the defeat of *Radicalism* is fixed beyond the shadow of a doubt. Let not men wrap themselves in indifference to the cry "that our liberties are imperilled," nor console themselves with the reflection, that this bug-bear shout is raised at every Presidential canvass. It requires no prophet nor the son of a prophet, to see that we are fast drifting to centralism, and the past is replete with the lesson; that whenever this becomes the fixed policy of a nation, its liberty is destroyed. It may still be strong at home, and respected abroad, its battle flag may still wave triumphant over the stricken field; the thunder of its guns may still be heard rolling over the ocean, still the liberty, the peace and happiness of the toiling yeomanry are gone, like the unsubstantial fabric of a fleeting vision. The Spouse of the Adriatic is a living witness of this truth. The Lion of St. Mark was abased by the supremacy of the Terrible Ten, and with centralization, the dream of Venetia's glory vanished forever.

A nation, armed with this terrible agency, may, like the hectic flush upon a consumptive cheek, delude itself into the belief, that vigor still remains, but beneath this gaudy exterior there is a canker-worm that will sap its strength and lay bare its rottenness. Rome fell, though defended by iron legions, when Augustus seized the baton of supreme authority. We are drifting into this whirlpool—the cataract is thundering in our ears, then let every stout arm put forth its entire strength to counteract the influence of the tide that would engulph us. We still have the ballot-box, but that palladium of our liberty is not secure. We have seen it guarded by bayonets. We have still the *habeas corpus*, but we have seen it abrogated, and entire districts, for the faults of a few, deprived of that last resort. Well may the good of the land tremble for the land's safety. You are doing a good and noble work, Messrs. Editors, and we bid you "God speed." You will say this is to be a hot campaign, and to post you now and then, will be the pleasure of JULE.

The sum of $4,400 has been contributed among the merchants of Norfolk, to the Virginia and North Carolina Fair.

The Governorship.

Mr. Editor: I see in the Raleigh *Sentinel* a short card recommending Hon. D. M. Barringer as the democratic candidate for Governor. It would be scarcely venturing too much to say, that this gentleman is at this time the "Ulysses" of our party. In wisdom, in experience, in all the elements of practical statesmanship—he has few equals and no superior of this broad continent. His course before, during and since the war prove his far sightedness and devotion to the best interests of the Country, and his consistency, moderation, just appreciation of the surrounding, and unswerving integrity entitle him to our highest admiration. Mr. Barringer's vision is circumscribed to no limited glimpse of the present, but takes a sweep into the distant future—and had the course indicated in his letter of April 1869, been adopted by the Conservative party, Radicalism would never have had the opportunity to plunder and degrade the State. While he has been one of the "truest of the true," his conciliatory manners, his unselfishness, his dignified reticence and abstinence from the jostles for office—render him the most acceptable candidate upon whom all classes of the opposition to "plunderers can unite. He is so well known to the State and Nation—having filled so many stations of public usefulness entirely satisfactory to all that his name will give assurance of reform, and be the rallying point to all who wish to save the State. To the Union man, it is known that he, as one of the Commissioners to the Peace Conference, did all he could to save the Government from disruption. To the Statesrights man, he is acceptable, because of his fidelity to North Carolina in the hour of her trial,—and to the friends of law and order and a restored brotherhood, his advice to submit heroically to the inevitable, and make the most of what was left us, will give him strength. Every step he has taken, every word of counsel he has uttered, has been marked by elevated statesmanship and practical patriotism. The elevation of such a man to the office of Governor at this crisis would do more to restore confidence in legislation and harmony among the people, than a dozen mere party victories. I trust the people's representatives in Convention assembled, will take this view of the matter, and nominate him by acclamation—and I know he is true a son of the Old North to decline—but will enter at once upon the canvass, and make it thorough, able and effective.

PRICE REDUCED.

The excellence of this Guano is now so well known from long experience in its use throughout the country, as to render it unnecessary to say more than to assure the planters, that its quality and composition is the same as that henceforth put into market, while its condition as to dryness is greatly improved.

Experience has shown that an application of 150 to 200 lbs. per acre, of this Guano, under favorable condition of season and culture, increases the crop from DOUBLE and TREBLE the natural product of the soil. An agency which so largely increases the product of labor, at so moderate an outlay, must be an essential element in the profitable cultivation of the soil.

LEGAL ADVERTISEMENTS.

In pursuance of An Act of the General Assembly, ratified the 23rd day of January, 1872, I have caused to be published the following certified copy of "An Act to alter the Constitution of North Carolina."

E. J. WARREN, President of the Senate.

January 24, 1872.

AN ACT to alter the Constitution of North Carolina.

SEC. 1. The General Assembly of North Carolina do enact (three-fifths of all the members of each House concurring),

That the Constitution of this State be altered as follows, to wit:

Amend section six, of the first article, by striking out the first clause thereof, down to, and including the word "but," this being the clause relating to the State debt.

Amend section two of the second article by striking out the word "annually," and inserting in lieu thereof, the word "biennially;" being in reference to the sessions of the General Assembly.

Amend section five of the second article by striking out all that precedes the words "the said Senate districts," and by striking out the phrase "as aforesaid or" in said section; the parts so stricken out having reference to the State census.

Add a new section to the second article to be styled "section 30," and to read as follows: "The members of the General Assembly shall each receive three hundred dollars as a compensation for their services during their term, subject to such regulations in regard to time of payment and reduction for non-attendance as may be prescribed by law; but they may have an additional allowance when they are called together in special session, and mileage shall be ten cents per mile for each session."

Amend section one of the third article by striking out the words "four years," where they occur first in said section, and inserting, in lieu thereof, the words "two years," being in reference to the terms of executive officers.

Strike out the words "Superintendent of Public Works," wherever they occur in the Constitution, thus abolishing that office.

Amend section six of the third article, by striking out the words "annually," and inserting, in lieu thereof, the word "biennially," so as to conform to the provision respecting the sessions of the General Assembly.

Strike out sections two and three of the fourth article, being the provisions which refer to the appointment and duties of the Code Commissioners.

Alter section four of the fourth article, so that said section shall read as follows: "The judicial power of the state shall be vested in the Court for the trial of impeachments, a Supreme Court, Superior Courts, such inferior Courts as may be established by law, and Courts of Justices of the Peace.

Alter section eight of the fourth article, so that said section shall read as follows:—"The Supreme Court shall consist of a Chief Justice and two Associate Justices; PROVIDED, That this shall not apply to the justices during their present term of office, unless by death, resignation, or otherwise, the number of Associate Justices shall be reduced to two."

Alter section twelve of the fourth article so that said section shall read as follows: "The State shall be divided into nine judicial districts, for each of which a judge shall be chosen; and in each district a Superior Court shall be held at least twice in each year, to continue for such time in each county respectively as may be prescribed by law. The General Assembly shall lay off said districts in due time, so that the said nine judges may be chosen and begin their official term at the first general election for members of the General Assembly which shall occur after the ratification of this section." The General Assembly may reduce or increase the number of Districts to take effect at the end of each judicial term.

Strike out section thirteen of the fourth article, which fixes the present judicial districts.

Amend section fourteen of the fourth article by striking out all after the word "office," and inserting, in lieu of the part so stricken out, the following: "The General Assembly shall prescribe a proper system of rotation for the judges of the Superior Courts, so that no judge may ride the same district twice in succession, and the judges may also exchange districts with each orher, as may be provided by law."

Strike out section fifteen of the fourth article, and insert in lieu thereof, the following: The General Assembly shall have no power to deprive the judicial department of any power or jurisdiction which rightfully pertains to it as a co-ordinate department; but the General Assembly shall allot and distribute that portion of this power and jurisdiction, which does not pertain to the Supreme Court, among the other Courts prescribed in this Constitution or which may be established by law, in such manner as it may deem best, provide also a proper system of appeals, and regulate by law when necessary the methods of proceeding, in the exercise of their powers, of all the courts below the Supreme Court, so far as the same may be done without conflict with other provisons of this constitution."

Strike out sections sixteen, seventeen, nineteen, twenty-five and thirty-three of the fourth article.

Amend section twenty-six of the fourth article by striking out all that part which begins with, and follows the word "but" in said section, and, in lieu of the part so stricken out, inserting the following:—

"The judicial officers and the clerks of any courts which may be established by law, shall be chosen by the vote of the qualified electors, and for such term as may be prescribed by law. The voters of each precinct, established as is elsewhere provided for in this constitution, shall elect two justices of the peace for such term as may be fixed by law, whose jurisdiction shall extend throughout their respective counties. The General Assembly may provide for the election of more than two justices of the peace in those precincts which contain cities or towns, or in which other special reasons render it expedient. The chief magistrates of cities and incorporated towns shall have the judicial powers of justices of the peace."

Amend section thirty of the fourth article by striking out the word "townships" and inserting, in lieu thereof, the word "precincts;" also in the last sentence of the same section, strike out the words "the commissioners of the county may appoint to such office for the unexpired term," and in lieu thereof insert "an appointment to fill such vacancy for the unexpired term shall be made as may be prescribed by law."

Amend sections one and seven of the fifth article, by striking out the words "commissioners of the several counties" where they occur in said sections, and in lieu thereof inserting the words, "county authorities established and authorised by law."

Strike out section four of the fifth article, relating to taxation to pay the State debt and interest.

Amend section six of the fifth article by inserting after the word "instrument" in said section the words "or any other personal property."

Insert the word "and" before the word "surveyor" in section one of the 7th article, and strike out the words "and five commissioners" in said section; also add to said section the following: "The General Assembly shall provide for a system of county government for the several counties of the State."

Amend section two of the seventh article, by striking out the word "commissioners" and in lieu thereof inserting the words "county authorities established and authorized by law;" and in same section strike out the words, "the Register of Deeds shall be ex officio clerk of the board of commissioners."

Strike out section three of the seventh article, and in lieu thereof insert the following: The county authorities established and authorized by law shall see that the respective counties are divided into a suitable number of sub-divisions, as convenient and compact in shape as possible, and marked out by definite boundaries, which may be altered when necessary. Said sub-divisions shall be known by the name of precincts. They shall have no corporate powers. The township governments are abolished. The boundaries of the precincts shall be the same as those which heretofore defind the tewnships until they shall be altered."

Strike out sections four, five, six, ten and eleven of the seventh article, which relate to the township system.

Amend sections eight and nine of the seventh article, by striking out the words "or townships" where they occur in said sections.

Strike out section three of the ninth article, and in lieu thereof insert the following: "The General Assembly shall make suitable provision by law for the management and regulation of the public schools, and for perfecting the system of free public instruction."

Strike out section five of the ninth article and in lieu thereof, insert the following: "The General Assembly shall have power to provide for the election of Trustees of the University of North Carolina, in whom, when chosen, shall be vested all the privileges, rights, franchises and endowments heretofore in any wise granted to, or conferred upon, the Board of Trustees of said University; and the General assembly may make such provisions, laws and regulations, from time to time, as may be necessary and expedient, for the maintenance and management of said University."

Strike out sections thirteen, fourteen and fifteen of the ninth article, relating to the University of North Carolina. Amend section ten of the eleventh article by striking out the words "at the charge of the State"

and in lieu thereof insert the words, "by the State; and those who do not own property over and above the homestead and personal property exemption prescribed by this Constitution, or being minors, whose parents do not own property over and above the same, shall be cared for at the charge of the State."

Alter section seven of the fourteenth article so that said section shall read as follows: "No person who shall hold any office or place of trust or profit under the United States, or any department thereof, or under this State, or under any other State or government, shall hold or exercise any other office or place of trust or profit under the authority of this State, or be eligible to a seat in either house of the General Assembly; PROVIDED, That nothing herein contained shall extend to officers in the militia, Justices of the Peace, Commissioners of Public Charities, or Commissioners for Special Purposes."

Add another section to the fourteenth article to be styled "section 8," and to read as follows: "County officers, Justices of the Peace and other officers whose offices are abolished or changed in any way by the alteration of the Constitution, shall continue to exercise their functions until any provisions necessary to be made by law in order to give full effect to the alterations so far as relates to said officers shall have been made."

Re-number the sections in those articles from which any section has been stricken without the insertion of another in its stead; and give to any new section that number which by this method would have been given to the section for which it is substituted, and the alterations shall be embodied into the Constitution, and the several sections numbered consecutively.

Ratified the 19th day of January, A. D. 1872.

CIRCUIT COURT OF THE UNITED STATES—FOURTH CIRCUIT, AND DISTRICT OF NORTH CAROLINA.

November Term, 1871—In Equity.

In the matter of Anthony H. Swasey, for himself and others, &c.,

AGAINST

The North Carolina Railroad Company, and David A. Jenkins, Public Treasurer, of the State of North Carolina, and others.

The undersigned having been appointed Commissioner by a decree of the said Court, made in the above named cause, at its November Term, 1871, to take an account of what is due to the plaintiff, A. H. And for the better taking of such accounts that parties produce, &c., and be examined, &c.

MONDAY.....MARCH 25, 1872.

TENDER AND TRUE.

He stole from its nest in my golden hair
A knot of riband blue;
He placed on my hand a jewel rare,
And whispered soft as he placed it there—
Tender and true—adieu, adieu!

The almond was bending with blossoms white,
The roses blushed through the dew;
The violet smiled in the glowing light,
And life was happy, and hope was bright,
Tender and true—adieu, adieu!

They brought my soldier home to me,
And my knot of riband blue;
But the cruel wound on the brow was hid
By the flag drooped over their coffin lid.
Tender and true—adieu, adieu!

The almond flowers in the breezes shake,
The roses still blush through the dew;
But the spring time of hope will never awake,
And the lone, lone heart will wail till it break.
Tender and true—adieu, adieu!

BRIGHT AND GLOOMY HOURS.—Ah, the beautiful world. Sometimes it is all gladness and sunshine, and Heaven itself is not far off And then it changes suddenly and is dark and sorrowful, and the clouds shut out the sky. In the lives of the saddest of us, there are bright days like this, when we feel as if we could take the great world in our arms. Then come the gloomy hours, when the fire will neither burn in our hearts nor on our hearth; and all without and within is dismal, cold and dark. Believe me, every heart has its secret sorrows, which the world knows not, and oftentimes we call a man cold, when he is only sad.—*Longfellow.*

IMAGINATION.—The fanciful fables of fairy land are but allegories of the young poet's mind, when the sweet spell is upon him. Some slight thing calls up the visionary world, and all the outward and actual is for the time forgotten. It is etherial and lovely; but, like all other fevers, leaving behind weakness and exhaustion. I believe there is nothing that causes so strong a sensation of physical fatigue as the exercise of the imagination. The pulses beat too rapidly; and how cold, how depressed, is the re-action!

Misery has many bitter moments; but, I believe, the first awakening after any great sorrow is the one of its most utter agony.

DON'T HAWK, HAWK, SPIT, SPIT, BLOW, BLOW, and disgust everybody with your Catarrh and its offensive odor, when Dr. Sage's Catarrh Remedy will speedily destroy all odor and arrest the discharge.
mh 16-1w

THE SECRET OF CAPTIVATION.—Features of Grecian mould, a well-turned neck and beautifully rounded arms, are no doubt very nice things to have, and ladies who possess these charms have reason to be thankful to Mother Nature; yet, after all, the most captivating of all wo—only charms is a pure, fresh and brilliant complexion. This superlative fascination any lady may secure by using HAGAN'S MAGNOLIA BALM, the standard beautifying preparation of the present age. It differs from all ordinary cosmetics in three most essential particulars, inasmuch as it contains no injurious ingredients, does not contract or shrivel the skin as all the astringent "blooms," "lotions" and "powders" eventually do, but produces a lasting loveliness by improving the health of the skin. Under its operation the texture of the epidermis becomes finer, and the surface safe as velvet and as smooth as porcelain. Features cannot be changed, but complexions can, and it is quite certain than a fresh and rosey complexion, will attract more admiration in company than her neighbor with a classic face but a sallow skin. mh 16-1w

A TRIUMPH.—No medicine ever offered to the people has won for itself such a reputation in so short a time, as DR. TUTT'S EXPECTORANT. Wherever it has been introduced, it has superseded all other Cough remedies. It not only cures the Cough, but so thoroughly purifies the Lungs, that no fears of its return need be apprehended.

MEMPHIS, February 11, 1869.

Dr. W. H. Tutt:

SIR—I have been suffering for nearly two years with a cough and great difficulty of breathing. My weight was one hundred and forty-five pounds; and when I commenced taking your Expectorant, I was reduced to one hundred and sixteen. I had tried almost everything; had terrible night sweats. I have taken half dozen bottles. The night sweats have left me, the cough has almost disappeared, and I have gained fifteen pounds in weight. I believe it will cure my cough. I recommend it to all my friends. With great respect,

GUANO! GUANO!! GUANO!!!
WALNUT HILL, N. C., Feb. 16, 1872.
Messrs. A. G. Lee & Co., Raleigh.
GENTLEMEN: In your request, I herewith submit the result of an experiment on cotton, with different kinds of Guano purchased of you last season. I planted twenty rows, using on the 1st four nothing, On the 2nd four, 5 lbs of Phuine.
" 3rd " " " Peruvian.
" 4th " " " Bat,
" 5th " " " Phuine and Peruvian mixed (1-5 Peruvian and 4-5 Phuine)—the boll of land all being of the same quality. The Guanos were all accurately weighed when put in, the cotton carefully weighed from each set of rows when picked out, and the cost of each kind of Guano correctly calculated; with interest at 8 per cent. per annum added. Taking the first four rows (without Guano) as a basis, the following is the result:
Net profit on the 2nd four (Phuine) on the money laid out, 71½ per cent.
Net loss on the 3rd four (Peruvian,) on the money laid out, 10⅝ per cent.
Net loss on the 4th four (Bat) on the money laid out, 23½ per cent.
Net profit on the 5th four (mixture) on the money laid out, 94 per cent.
The cotton was put at 6½ cents per pound in the seed.
Very respectfully yours,
A. T. MIAL.
